

**BRAINSTORMING –GENERATING IDEAS****What do I need to do?**

1. Brainstorm and generate possible ideas **with your mentor.**
2. Record information and developments.

**How?**

- **Complete a list of possible ideas/topics or interests**
- **Write the project proposal** and submit it online **by 9<sup>th</sup> December.**

**GUIDELINES:**

1. **Investigate YOURSELF:** What actions would you like to get involved in? What skills do you have, or would like to develop? Are there certain attributes of the IB learner profile you would like to explore or enhance? What barriers may exist to limiting your participation?
2. **Investigate COMMUNITY:** what issues does the community face? How could you get involved in addressing the issue? Are there any steps previously/presently undertaken to address this issue? Could you join others already taking steps in addressing this issue?
3. **Develop a project proposal (clarify idea):** The purpose of your proposal is to seek approval from your Mentor and Community Project Coordinator.

Your proposal needs to include at least two developed topic ideas and inquiry questions that will model the purpose of the project and give an explanation of what you hope to achieve?

POSSIBLE TOPICS	MY INTERESTS/SKILLS	INQUIRY QUESTION
Sports	Basketball player	How can I improve my basketball skills? How can I use my basketball skills to complete a community service?
Arts	Actor	How can I become an actor? How can my acting skills help me to complete a service action?
