

TAKING ACTION

What do I need to do?

C1 demonstrate service as action as a result of the project

C2 demonstrate thinking skills.

C3 demonstrate communication and social skills.

HOW?

1. **Carry out the service as action:** continue working on and complete the product/outcome.
2. **Reflect:** record information and development, reflect on your product/outcome (what worked, what didn't, how to improve it).
3. **Share** your work with others: with whom and how did you share your work.
4. **Prepare and complete the oral presentation** (time allocated: 6-10 minutes).

IMPORTANT!

Your Taking Action needs to be carried out and recorded **by 24th February**.

Any changes, problems or difficulties you might face during your action taking process, need to be recorded in this section. You will also need to reflect upon it in your final Reflection.

CHECK:

How does your outcome/product show that you have answered the inquiry question?
