

Due on 2nd November

During brainstorming you have listed possible service for your community based on your interests, skills and talents.

Now, gather information about the need for your service. Use different sources/approaches which can include: media, interviews, surveys, and direct observation/personal experiences.

Investigate
What is the goal of your service? Why is your service important? How will you provide this service? Research your topic and find out if there is a need for your service? Use various sources and at least one primary source (person, organization, group, profession...) that will support your service! Complete the individual reflection task - choose one learning outcome and answer the questions connected to it in a video or voice recording.
