## HANDWRITING WEEK

From 23rd January until 27th January we will pay special attention to handwriting and the role it plays in the learning process, communication with our work, school community and our loved ones. The topic this year is "Write slowly and calmly." When we are writing by hand we can focus and be mindful about how and what we write. Slowing down is a quality that is often overlooked in this rapidly changing world and can help us reflect on our own thoughts, too.

We are collecting your work until the 3rd of February.

Ms Katarina Čepič
